Step 3: Adding a Feed

Click the “Add feed” button on the Main Screen (Figure 1). The Feed menu opens (Figure 3). Follow the steps below to configure your setting.

- Set URL to <http://www.borntowin.net/podcast/borntowin.xml>
- Set Name to “Born to Win Podcast”
- Leave “Playlist” empty
- Check “Only download last” and set the number of podcasts to 2
- Click “Add feed.”

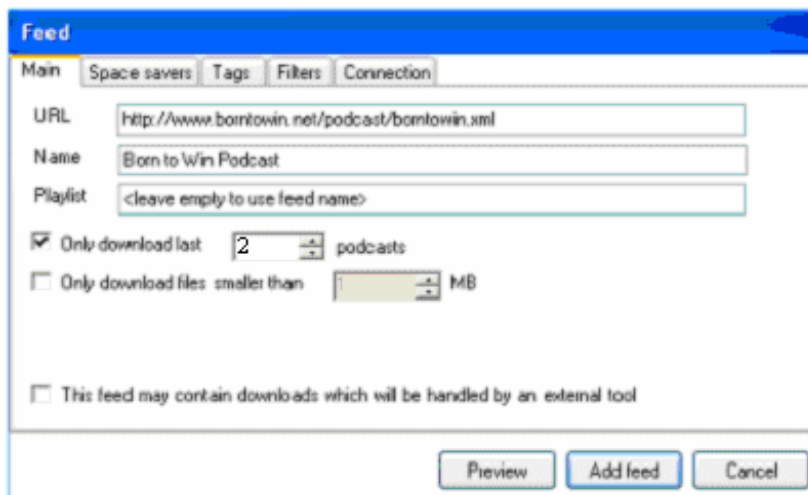

Figure 3: Feed Menu

If you are online, you can click the Retrieve Now button on the Main Screen (Figure 1). *Doppler* will download today’s *Born to Win* daily program to your computer. Enjoy!

Edit a Feed

Step 1: Open *Doppler* Program

- If the *Doppler* program is **NOT** running on your computer, please follow Step 1 in the Set Up *Doppler* section to open it.
- Otherwise, please double click on the *Doppler* icon located on the taskbar (Figure 4).

Figure 4: *Doppler* Icon

Step 2: Edit / modify a feed

- Highlight the name “Born to Win Podcast.”
- Click Edit on the menu bar and then Edit feed. The Feed menu opens (Figure 5).

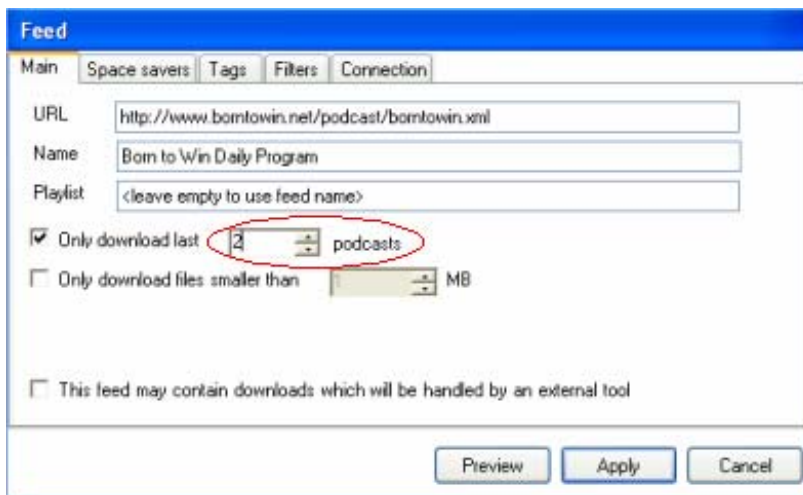

Figure 5: Edit a Feed

- Set the number of podcasts to 2 and click “Apply” button
